

TC-5000MH-18F

Smart Indoor Monitor

Wall-mounting Installation

Quick Guide

Product Overview

Accessories

Installation

Step 1: Mounting bracket installation

Pre-install standard 86 box in the wall, fasten the bracket to the box using screws.

Note: Please make sure the hooks are facing up and outward. The distance between 2 holes is 60mm.

The mounting bracket installation is done.

Step 2: Device installation

Connect cables to the corresponding ports on the back of the device (please refer to the device wiring section).

Align the holes on the back cover with the hooks of bracket. Press the device into the bracket and push down until it is clipped on.

The device installation is done.
