

## COMPANY PROFILE

**Eastful Group Co.,Ltd.**

Your preferred designer, manufacturer and global supplier of electrical and industrial solutions

Eastful Group Co., Ltd., established in 1997, stands as a premier high-tech enterprise seamlessly integrating research and development, production, and sales of wires and cables. Our commitment to innovation is underscored by the establishment of academician expert workstations and several provincial and ministerial-level R&D platforms, including the "Chongqing Collaborative Manufacturing & Innovation Center of Special Cable", "Chongqing Engineering Research Center of Intelligent Cable", "Enterprise Technology Center", and "Chongqing Industrial Design Center", among others.

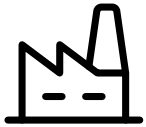

With a steadfast dedication to research and development, Eastful has amassed 157 domestic and international patents, comprising 73 Chinese invention patents and 12 American and European patents. Notably, our efforts have resulted in the incubation of 1 breakthrough product and 14 high-tech products in Chongqing. Many of our products hold prestigious certifications such as Swiss SGS, European ROHS, American IATF16949, Canadian UL, German TÜV, and China Classification Society quality certification.

Bolstered by a proficient team and a robust product supply

chain, Eastful specializes in producing a diverse range of cable products, including civil-grade, industrial-grade, and special cables. Our portfolio encompasses neural network cables with full intellectual property rights, century-long life wires, automobile wiring harnesses, rail transit cables, mineral insulated fireproof cables, photovoltaic power cables, marine control cables, wind power cables, and more. These products find extensive application across various sectors such as home decoration, electric power, rail transit, construction, petrochemicals, mining, vessels, highways, machinery, metallurgy, communications, and new energy.

Our dedication to excellence has earned us numerous awards and titles, including recognition as a Top Ten Special Cable Brand in China, Top 100 Enterprises in China's Wire and Cable Industry, Top 100 Wire and Cable Suppliers with the Most Bidding Power in China, National Enterprise with Excellent Quality and Integrity Commitment, National Intellectual Property Advantage Enterprise, National Green Factory, Chongqing Smart Factory, and First Prize of China Nonferrous Metal Industry Science and Technology Award.

## Founding and Vision Establishment 1997-2004

Transitioned to a joint-stock company, rebranded as "Eastful Group Co., Ltd.," and commenced a new growth phase.

**November 2020**  
Began IPO counseling, preparing for public stock issuance.

**August 2022**  
Honored as a benchmark enterprise for intelligent manufacturing, showcasing leadership in innovation.

**February 2023**  
Recognized as a national-level green factory, demonstrating commitment to sustainability.

## Thriving on Quality, Building on Integrity

- **Rigorous Material Selection**

We optimize production processes, recognizing that efficiency directly impacts profitability. Adopting a cycle matching production approach, we ensure only top-tier products meet our exacting standards.

- **Meticulous Production**

We prioritize quality over quantity in our material selection process. Every material undergoes thorough performance testing via sampling, guaranteeing that only those meeting our stringent standards proceed to production.

- **Effective Management**

We establish a scientific indicator system and an information management platform, fostering standardized management practices to uphold efficiency and quality across all operations.
