ABOUT US

COMPANY PROFILE

Sichuan Magiring New Material Technology Co., Ltd. specializes in manufacturing car films to lead market trends. We have excellent teams that focus on product development and design, quality control and inspection, and overall company operations. Our expertise lies in the automotive field and services, offering products such as paint protection film, color-change wrap, window tint, and headlight film to meet all your needs.

We are making great efforts to develop new products to meet diverse requirements. Adhering to the business principle of mutual benefits, we have earned a reliable reputation among our customers due to our professional services, high-quality products, and competitive prices. Our products are exported to clients in Europe, America, Canada, and other regions, where they sell well. We also offer customization services and have partnered with 50+ brands worldwide.

Our main production raw material is TPU. TPU PPF is a strong protective coating that adheres to the curves of the vehicle body and resists scratches. We also have self-healing, stain and paint resistant, clear crystalline protection, optical clarity, hydrophobic and UV rejection effects.

Now we are using our own automotive industry resource advantages to provide quality products and services to the market, to create the industry's leading brand-MagiRing.

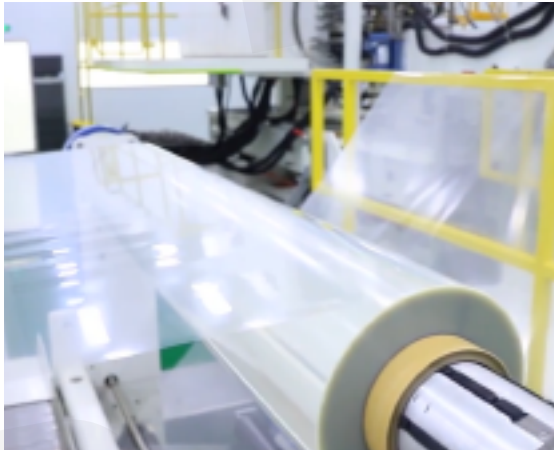

MISSION

Excellent automotive film manufacturer, excellent business partner

CORE VALUES

To be kind, altruistic, honest, pragmatic, and people-oriented. Consciously, efficiently, and creating excellence and progress.

FACTORY & SUPPLY CHAIN

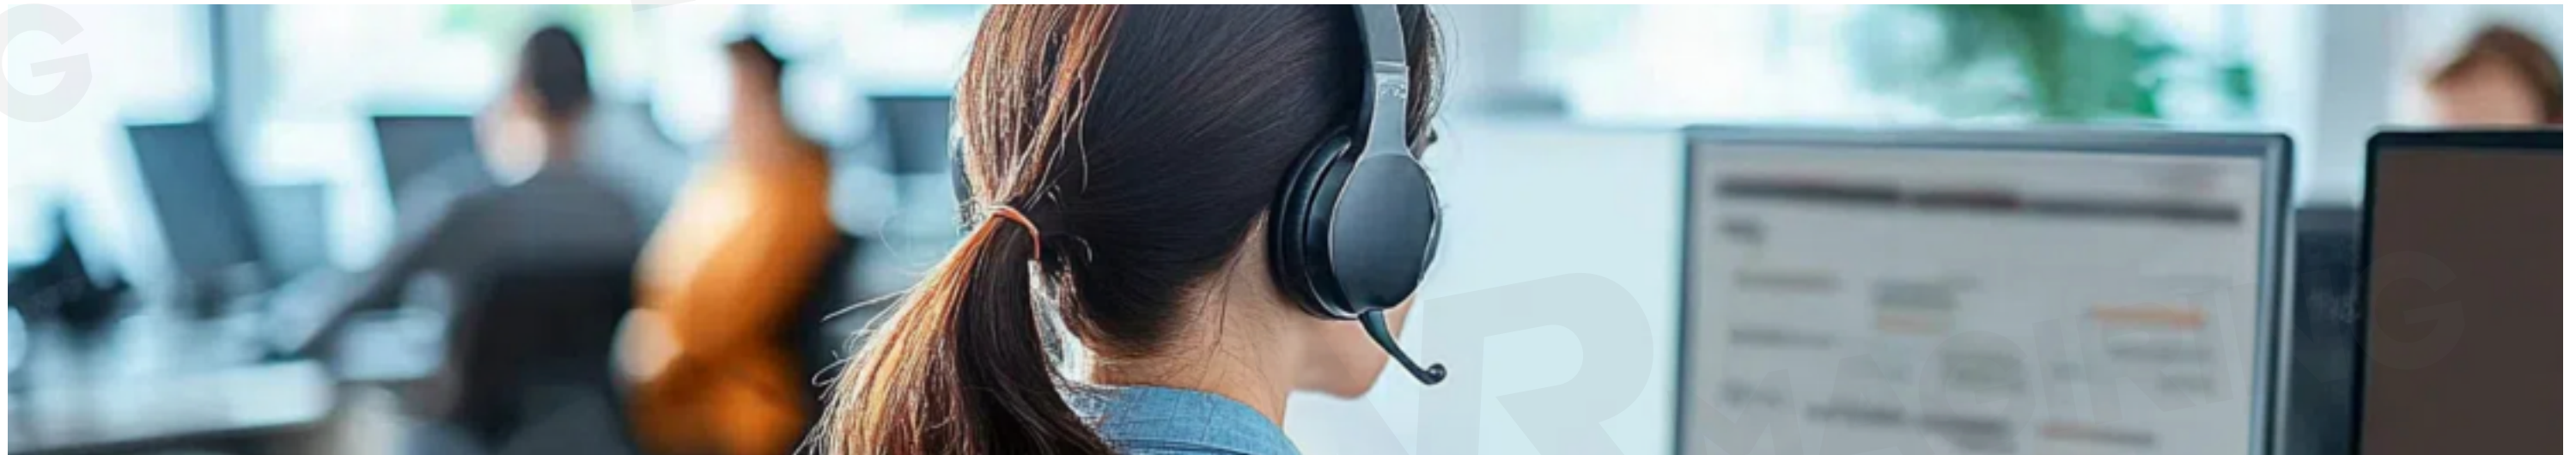

TEAM & SERVICES

Magiring began with a few young people's vision and love for car modification. Magiring is committed to creating a better and more sustainable car life by giving new concepts and experiences to car body film, breaking through the limitations of existing film in the market.

We believe that car body film will bring car owners an experience beyond expectations, and we hope to provide more car owners with car body film that meets their preferences.

At present, Magiring takes advantage of its own industry resources and has a core R&D team covering elastomer polymer materials, mechanical equipment, coating engineering and production technology to provide the market with high-end and high-quality products and services. Innovation never stops, our team is committed to leading the quality upgrade of car cover products.

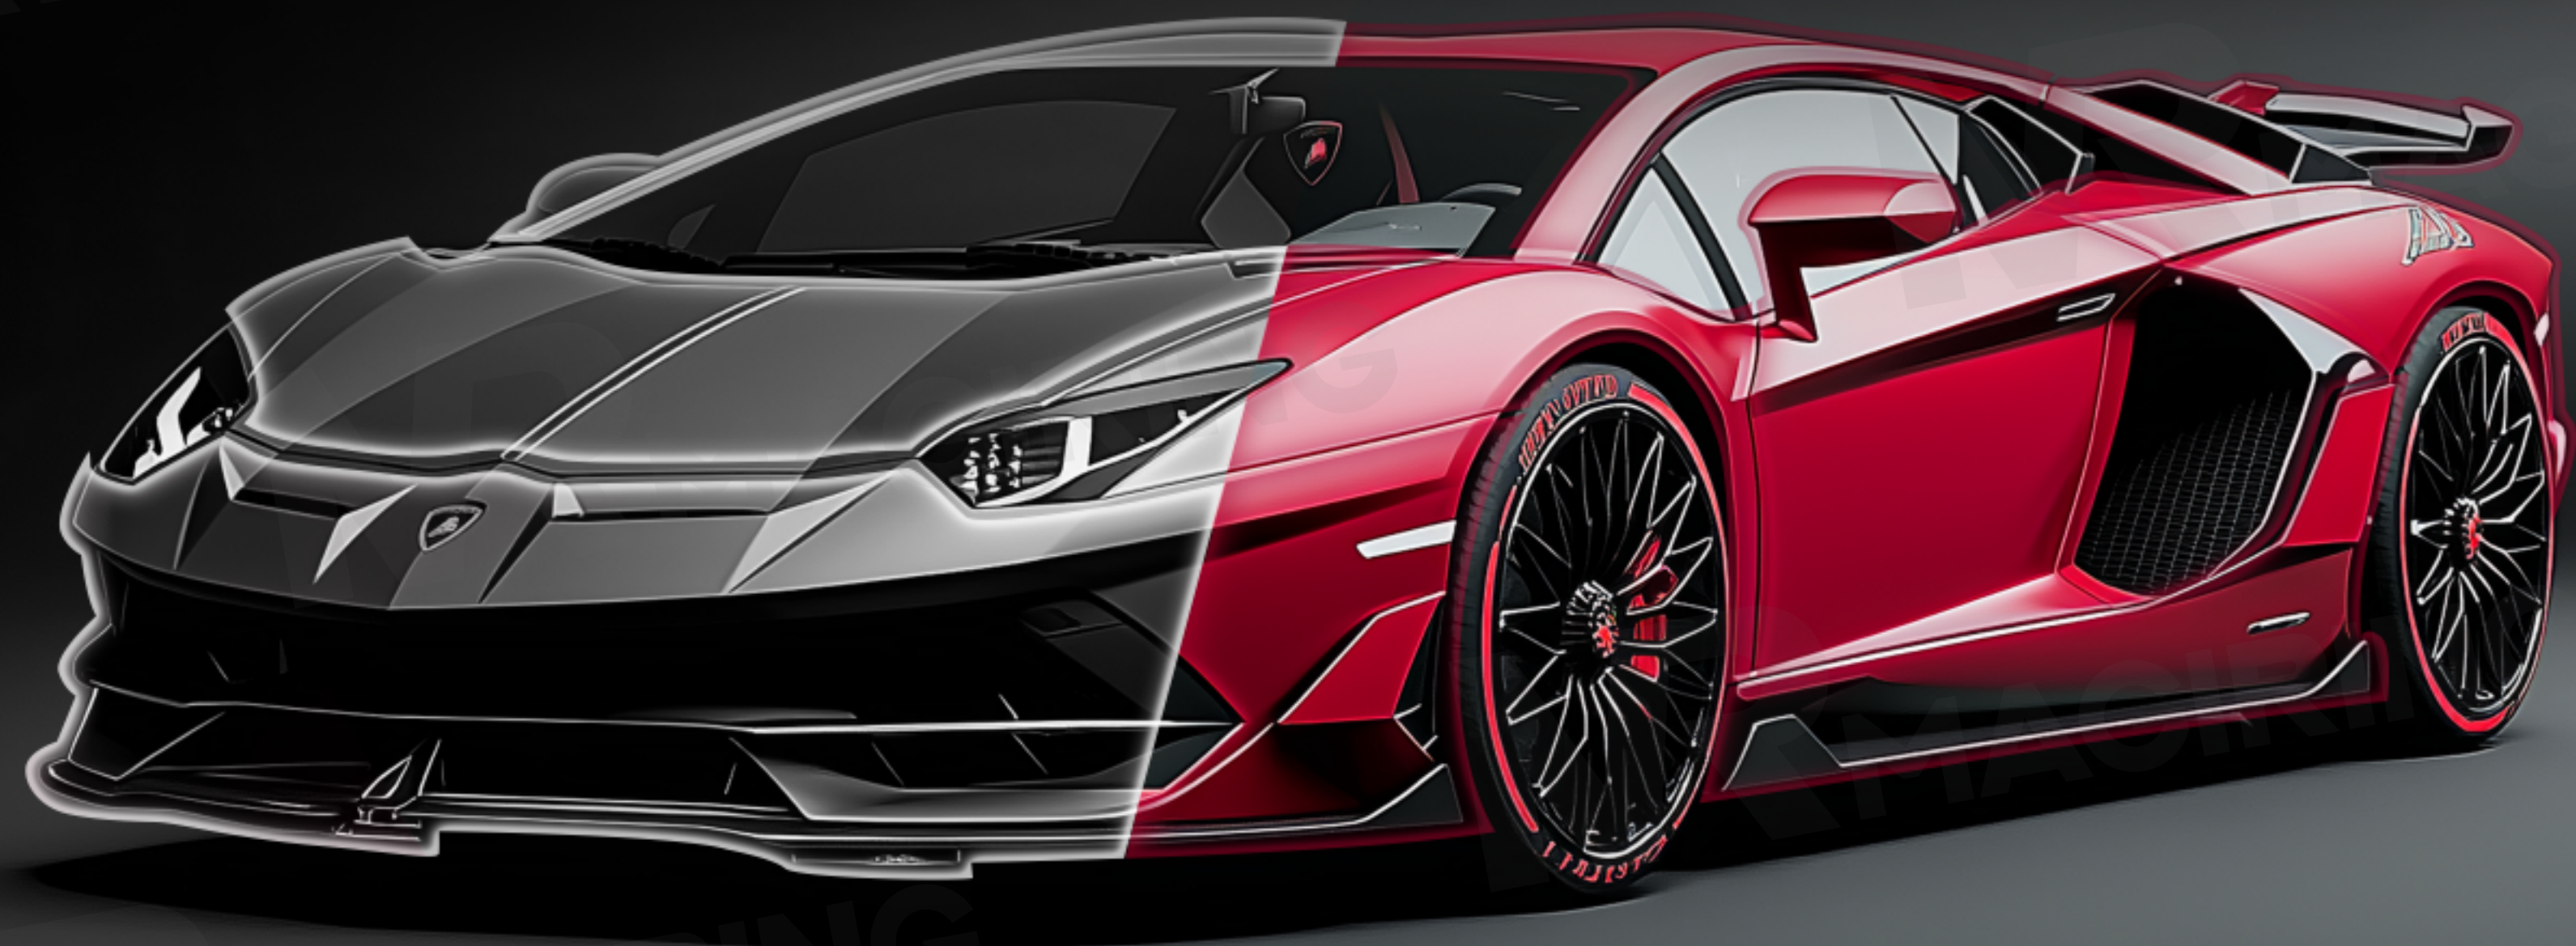

As a global car film manufacturer, Magiring aims to provide our partners with the best car films at a lower price. Our products are very cost-effective.

While providing our partners with excellent quality products, we provide meticulous guarantee services. Customer service is available 24 hours a day, and communication efficiency and product delivery are very fast. Different payment methods are available for selection, and we support various international logistics.

OUR ADVANTAGES

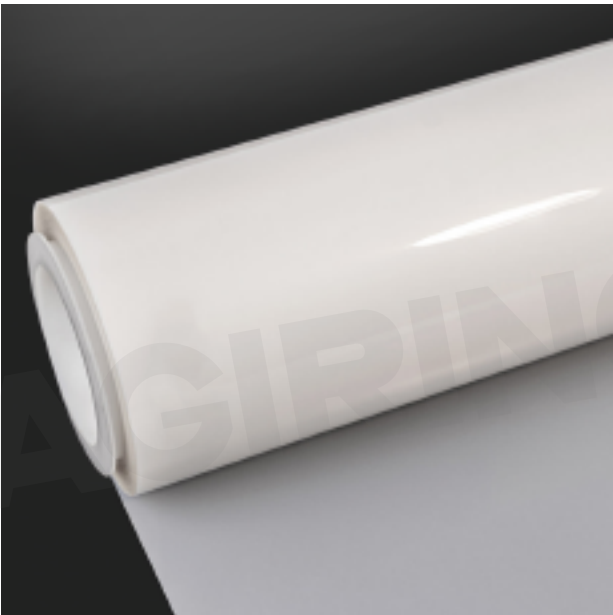

Raw Materials	Our TPU raw materials supplied by Coverstro Germany, Huntsman USA & Japan Mitsu, a variety of substrates are available
Equipment	Possess a top-notch set of fully imported TPU equipment
Matching	Self-repair coating quality control throughout the process
Technology	Advanced equipment and control the performance of raw materials
TPU	Coverstro Germany /Japan Mitsui Chemicals
Glue	USA Ashland Glue
Coating	Self-developed nano-coating Self-repairing scratches
Layer	PET protective layer
Package	Support Customized
