Our company holds the right to improve the apperance, dimension and technology of the prooducts without prior notice. The critrion for all the paeduct sizes and colors are based on the standard of the material.

INTERNATIONAL QUALITY

Adhering to the core of the Nordic design ideas "people-oriented", Every detail is considered to the design aesthetic, practical science, psychology experience and so on. It creates the greatest convenience and comfort for consumers' end-use.

Selective material, perfect quality! BINLI knows, quality and technology have a crucial impact on design. To this end, BINLI have done hundreds of times for the has meticulous materialize and mechanical properties analyzing. Each production process had been Seiko manufactured; each component has been of more than 100 times quality control; each production link is closely monitored. Accordingly, BINLI select high-quality natural materials and develop innovative peer-to-leading technology. And BINLI apply them to its every products.

Each detail's design, displays the incisive human nature concern idea: One time takes shape the craft has guaranteed the product absolute containment; The nanometer causes the dirt from the clean glaze to be extremely difficult to absorb, very easy clean; Static sound parachute approach principle reduction noise production; The dismountable lap causes the clean to work handily; The urea aldehyde lap has the ceramic sense of reality surface, degree of hardness is high, firm durable, is not easy to scratch, after abandoning, in the nature may degrade the fertilizer naturally, will not cause the environmental pollution.

Perfect details, reserved luxury. BINLI, each product reflects the high degree of concern of human nature.

From the appearance to function, on the whole to details...... from any angle, you could feel the unique charm of the Nordic design! BINLI is not only to provide sanitary products, produce not only the color or material, but a carefully planned system of values.

PROFESSIONAL FACTORY

Rely on the principle of the forerunner of international technique equipments and The careful system of production control. BINLI bath each products, from the beginning of born, will need Through design esthetics, the person machine engineering, the layer after layer test of the experience psychology etc. Then is each work nicety process, careful and attentive quality check of each zero parts, tight supervision of each link, just can be sent to your hand. Each step all take international level as standard, just infinite satisfy your quality need, the latest material and technique usage more relief BINLI eager innovation trend.

We pursue persevering the international quality, now have gain move country quality approve, each uncommon product, each perfect detail all can feel BINLI bath charm. We offer only the perfect quality product, but also the meticulous molded life style.

AS THIN AS CICADA

Nothing we can not do, only we can not find. It is just about the best annotation to bath design. concision, nature, easy, classicality and leading be derived from the different cognize to family, to life and to low. The more understanding our life, the more characteristic for bath.

28 | PERFECT | 29 | PERFECT

The sanitary wares are full of elegance and power, with plain appearance to represent

Brief because of conforms to modern people's life style but to become in the design the classical tidal current. The line, leaves a parting note for somebody, in brief style unusual fragmentary decoration. In the spacious space, all apparatus establishments are humanist.

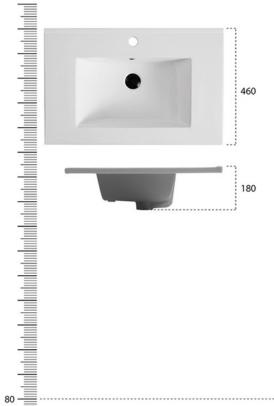

Holding a handful of cool flowing water with both hands, enjoy endless reverie. The ones that kept away from the modern city are noisy and noisy, the ones that only had a deep longing for are pure and intoxicated.

Artistic Basin

The style of sanitary wares goes ahead with current, as their history. For example, the transition from Chinese traditional style to neo-classicalism is purification and statement of Chinese culture, also inheritance and development of sanitaryware culture. In another way, it means simplicity, a simple form of sanitary wares.

Nowadays design canonize esthetical, BINLI under basin with smooth surface satisfy its simple creed style requirement perfectly, make water stream smoothly, use the most creativity stream line and elegant popple show its design profundity, special and fill full of brightness.

The modern design style in the national community comes to meet our satisfaction towards space in concise form----brief and bright. Fast rhythm, high speed and full burden push people to a superhuman state. We are eager for space that can fully relax us in simple and pure, rather than complexity, our idea towards living aims at briefness and nature.

Concise and convincing lines can arouse weaves in our heart. Among sanitary wares of modernism, dark colors, which are dignified and formal, can cause feelings of distance and space; light colors, which are quiet and calm, can fully relax us.

DENOTATION LIFE

Here, classic, fad, all kinds of style and design, cannot but to carefully conjecture, boldly accept, the aptness comes from kinds of life normality, abstract and create the denotation that not only can express modern thought but also with abounded and new and fresh.

Soaking into the geometry model with sheer rigidity and simple and hale and hearty lines with her tenderness, have trend that naturally comfortable and romantic brief styles are substituting the simple leading market of extremely simple doctrine gradually. This kind of style emphasizes that draws the inspiration, and soft and mild and indirect lines from the model of pure geometry. On the tone, still adopt the past cool colour this year, white, milky white, cream-coloured, black and gray still propagate its belief on a large scale. The smooth and clean glaze, calm color, the three-dimensional model of geometry, soft corner, the cool sense is sheer and simple and easy and natural metal tap, has brought up the naturally comfortable and romantic brief style.

popular

Concision does not mean briefness, concision is the pick of the basket that high quality is assembled together to give up disadvantages, subjective form in highly-concentrated summary. The new conception use new material, new technology and new way to unite new ideas and new thoughts instead of traditional fashions and styles. It unites people's new ideas and lead us to a human compass. Concision is a rule of the nature, it's soul of the culture and character of the people.

On bathroom decorations, the simplicity should be about humanity, aesthetics, culture and environment. Namely, represent human needs, pay attention to their material needs and mental ones, and extend the meaning of home. So we can get the most spacious area, comforts, simple convenience and visual enjoyment of bathroom designs.

Without affectation, within measure, the pure-white colors, bring to us natural and brilliant comfort. Soft arc elements are given to lines, which stand for traditional pottery craft and modern technology in technique. Sanitary wares are silent, and they tell us their owners' living state and living style.
