天津盛达新材料有限公司成立于 2000 年，自成立以来一直致力于高性能粉末涂料的研发与销售。率先通过 ISO9001：2015 质量管理体系认证和 ISO14001：2015 环境体系认证；先后荣获“天津市著名商标”、“国家级高新技术企业”“天津市技术中心”等荣誉称号。

Tianjin SSEART New Material Co., Ltd has been committed to the research & development and sales of high-performance powder coatings since established in 2000. All of our products have been certified by ISO9001:2015 quality management system, ISO14001:2015 environmental management system and was awarded as Tianjin Famous Trademark, National High-tech Enterprise, Tianjin Technology Center.

盛达始终坚持“品质领先战略”，先后参与北京奥运会、京沪高速铁路、京广高速铁路等国家级重点工程，2017 年兴起的共享单车，盛达为所有的共享单车品牌都提供了粉末涂料，并为摩拜单车、滴滴青桔单车制定了涂料技术标准，作为中国自行车行业理事单位，2019 年参与修订《自行车用涂料国家标准》。盛达也是格力电器、永大电梯、迪卡侬等国内外知名企业的长期合作伙伴，并在 2018 年被格力电器评为“优秀供应商”。

SSEART always adheres to the "quality leading strategy" and has participated in the national major projects of Beijing Olympic Games, Beijing-Shanghai high-speed railway and Beijing-Guangzhou high-speed railway. With the popularity of bike-sharing in 2017, SSEART has provided powder coatings for all bike-sharing brands, and established coating technical standards for MOBIKE and DIDI BIKE. As the council member of China's bicycle industry, SSEART draft the national standard for bicycle coatings in 2019. SSEART is also a long-term partner of GREE, YUNGTAI, DECATHLON and other well-known enterprises at home and abroad. In 2018, SSEART was rated as "Excellent Supplier" by GREE.

2019 年，盛达和天津大学开展合作，项目由加拿大皇家学院院士、加拿大工程院院士祝京旭教授和天津市千人计划张辉教授领导，积极推动中国环保粉末涂料的应用与发展。

In 2019, SSEART cooperates with Tianjin University jointly, which was led by Professor Zhu Jingxu, academician of Royal Canadian College and Canadian Academy of Engineering, and Professor Zhang Hui of Tianjin Thousand Talents Plan. This will highly promote the application and development of environmental-friendly powder coatings in China.

企业简介 COMPANY PROFILE

盛达产品优势 PRODUCTS ADVANTAGES

万种颜色：亮度高、流平好，为客户产品设计赋予更大空间
More than 10,000 colors, High Brightness, good flow, for the customer product design to give more space

功能齐全：数十种功能性粉末涂料，满足各种场景需求
Multi-function: Dozens of functional powder coatings, to meet the needs of various scenarios

绿色环保：无溶剂、无挥发，全线产品不含铅，符合欧盟 RoHS 标准
Green environmental protection: no solvent, no volatile, all products without lead, in line with the EU RoHS standards

技术领先：与天津大学开展战略合作，研发技术实力雄厚
Leading technology: With Tianjin University to Carry Out Strategic Cooperation, research and development of strong technical strength

企业文化

CORPORATE CULTURE

愿景：成为世界一流的粉末涂料企业

Vision: Become a world-class powder coating enterprise

使命：让绿色涂料美好人们生活

Mission: Green paint, better life

核心价值观：实事求是

Core values: Seek truth from facts

经营理念：以客户为中心 为客户增值

Business Philosophy: customer-oriented, value-added for customers

2000
在天津成立
SSEART brand was founded

发展历程 DEVELOPMENT

2000

2003
参与天津博物馆工程项目
Participated in the Tianjin Museum Project

2004
为天津海河改造工程供应粉末涂料
Became powder coating supplier of Tianjin Haihe renovation project

2008
成为京沪高速公路粉末涂料供应商
Become powder coating supplier of Beijing-Shanghai Expressway

2009
镁合金粉末涂料问世
Magnesium alloy powder coating launched

中国石油

2010
为中国石油天然气股份有限公司提供粉末涂料
Supplied powder coating for the China Petroleum and Natural Gas Co., Ltd

2010

2015
成为格力电器正式供应商
Become the official supplier of GREE

2016
为摩拜、OFO等共享单车品牌提供粉末涂料,被誉为“中国最专业的自行车粉末涂料供应商”
Provided powder coating for the MOBIKE, OFO and other bicycle-sharing brands
Be awarded as the most professional supplier of bicycle powder coating in China

2017
成为永大电梯粉末涂料供应商、参与雄安新区基础建设工程项目。
Became the powder coating supplier of YUNG TAY
Participated in the infrastructure project of Xiong'an New District

2018
被格力评选为“优秀供应商”、成为迪卡侬粉末涂料供应商、成为中国自行车协会第九届理事会理事单位。
Rated as "Excellent Supplier" by GREE
Became the powder coating supplier of DECATHLON
Become the 9th council member of the China Bicycle Association

2005

2005
成功竞标天津轻轨工程供应轨道交通专用粉末涂料
Won the bid and supplied the powder coating for Tianjin light rail project

2006
参与天津地铁工程、为美国爱康体育供应健身器材专用粉末涂料
Participated in Tianjin subway project, supplied fitness equipment powder coating for ICON

2007
成为奥运会青岛帆船赛主会场粉末涂料供应商
Supplied powder coating for the main venue of Olympic sailing event in Qingdao

2011
参与京沪高速铁路工程
Participated in Beijing-Shanghai high-speed railway project

华晨宝马

2012
成为华晨宝马指定粉末涂料供应商
Become nominated powder coating supplier for Brilliance BMW

2013
与格力小家电建立合作关系
Established cooperation with GREE small appliances

2014
参与辽西铁路沈四铁路工程荣获“天津市著名商标”“天津市高新技术企业”等荣誉称号
Participated in western Liaoning railway, Shenyang-Siping railway project
Be awarded as Tianjin Famous Trademark, Tianjin High-tech Enterprises

2019
与天津大学化工学院建立研发合作关系
Establish strategic R&D cooperation with School of Chemical Engineering and Technology, Tianjin University

2019

2020
与中集集团建立合作
Establish cooperation with CIMC group

2021
盛达全资子公司天津悦彩材料科技有限公司完成投产
SSEART wholly-owned subsidiary Tianjin Yuecai Material Technology Co., Ltd. Completed Production

行业资质

QUALIFICTION

盛达新材料全线产品符合欧盟 RoHS 标准,通过 ISO9001、ISO14001、安全标准化、信用企业认证；我们重视技术创新和品牌建设,先后荣获国家级高新技术企业、天津市著名商标。同时,作为中国自行车涂料标准起草者,为行业输出最先进的技术规范；盛达是中国流行色协会理事单位,盛达始终坚持与时俱进,大胆进行色彩创新,满足了客户的个性化需求。

All of the SSEART products confirm to EU RoHS standard, certified by ISO9001- ISO14001, Safety Standardization, Credit Enterprise. SSEART attach great importance to technical innovation and brand development, awarded as National High-tech Enterprise, Tianjin Famous Trademark. Meanwhile, as the drafter of Chinese bicycle coating standard, SSEART deliver the most advanced technical specifications for the industry. SSEART is a council member of China Fashion & Color Association, always keeping pace with the times, insists on color innovation to meet the customized requirements.

合作伙伴

COOPERATIVE PARTNERS

长期以来,盛达坚持“品质领先、可持续发展”的理念,与国内外知名企业展开合作,盛达是格力电器的“优秀供应商”,为摩拜、滴滴、青桔等共享单车指定涂料技术标准,参与京沪高铁工程,与华晨宝马、迪卡侬等国际企业展开合作等。

For a long time, SSEART has adhered to the concept of "leading quality and sustainable development" and cooperated with well-known enterprises all over the world, Rated as "Excellent Supplier" by GREE, Participated in Beijing-Shanghai high-speed railway project, Established coating technical standards for MOBIKE and DIDIBIKE, cooperation with Brilliance BMW、DECATHLON and other International Enterprise

品质领先

QUALITY FIRST

产业链 好产品

INDUSTRIAL CHAIN GOOD PRODUCT

盛达全产业链质量控制只为一箱优质的粉末
SSEART whole industry chain quality control only for a box of high quality powder

技术合作 TECHNICAL COOPERATION

与拥有百年历史的天津大学化工学院开展战略合作

Strategic cooperation with School of Chemical Engineering and Technology, Tianjin University, which has a century history

2019 年，盛达和天津大学开展合作，项目由加拿大皇家学院院士、加拿大工程院院士祝京旭教授和天津市千人计划张辉教授领导，积极推动中国环保粉末涂料的应用与发展。
In 2019 , SSEART cooperates with Tianjin University jointly , which was led by Professor Zhu Jingxu , academician of Royal Canadian College and Canadian Academy of Engineering , and Professor Zhang Hui of Tianjin Thousand Talents Plan. This will highly promote the application and development of environmental-friendly powder coatings in China.

技术研发 TECHNOLOGY DEVELOPMENT

创新科技

INNOVATION AND TECHNOLOGY

盛达拥有稳定的核心研发团队和不断壮大的研发队伍，根据市场发展趋势，洞察客户需求，不断创新粉末涂料产品，如邦定金属产品、亚克力产品和各种功能性产品等。
SSEART has stable core R & D team and a growing R & D team, in accordance with market trends, insight into customer demand, continuous innovation of powder coatings products, such as bonding metal products, acrylic products and various functional products.

研发设备

R & D EQUIPMENT

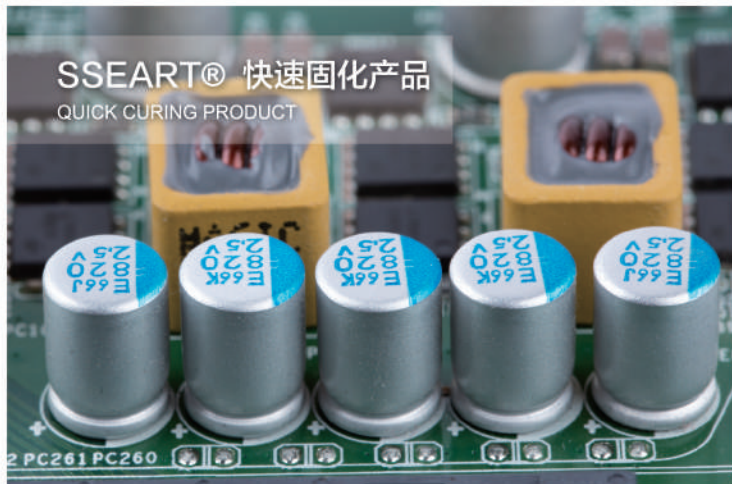

盛达研发中心拥有所有粉末涂料检测设备及重点原材料检测设备，如Datecolor自动配色仪、美国Q-SUN氙灯老化测试仪、美国TA DSC差式热量扫描仪、德国BYK色差仪、美国BROOKFIELD粘度仪等检测设备，确保试验数据的精准度和科研结果的科学性。
SSEART R&D center has all powder coating testing equipment and key raw material testing equipment, including Datecolor automatic color matching instrument, American Q-SUN xenon lamp aging tester, American TA DSC Differential Calorimeter, German BYK chromatic aberration meter, American BROOKFIELD viscometer and other testing equipment, ensure the accuracy of test data and scientific of research outcomes.

数据库

DATABASE

盛达经过二十余年发展，积累了庞大的理论知识数据库，有效支持产品研发和客户需求。
SSEART has developed for more than 20 years, has accumulated a huge and theoretical knowledge database, effectively support product R & D and Customer Needs.

最新产品 NEW PRODUCTS

SSEART® 亚克力产品

ACRYLIC PRODUCTS

SSEART® 亚克力系列产品最大的特点是色彩鲜艳，色相纯正，质感极好，格调高贵且稳定持久，耐候性极强，不易褪色。该产品在保护物体表面同时又有极强的装饰作用，能大大提高产品的附加值，广泛应用于室内和户外，金属与非金属制品。

The biggest characteristic of SSEART acrylic series products are bright and pure colors, excellent texture, noble and stable, with strong weather resistance and not easy to fade. This product has an excellent decorative effect and protecting the surface of object at the same time, greatly improves the added value of product, can be widely used in indoor and outdoor, metal and non-metal products.

SSEART® 仿电镀产品

IMITATION ELECTROPLATING PRODUCT

SSEART® 仿电镀产品利用仿镀铬、镀镍的外观表现效果来取代电镀产品，颜色可呈金、银、铬等各种颜色。产品兼具功能性和装饰性，亮度高，喷涂效果接近电镀，可替代电镀工艺。该产品应用在家具、五金器械、工艺品、家电用品、建材、健身器材、交通设施等行业。

SSEART Imitation electroplating products use the appearance effect of imitation chrome, nickel plating to replace electroplating products; color can be gold, silver, chromium and so on. The product has both functional and decorative effect, high brightness, spray effect is close to electroplating, can replace the electroplating process. The products are used in furniture, hardware, arts and crafts, household appliances, building materials, fitness equipment, transportation facilities and other industries.

SSEART® 变色龙产品

CHAMELEON PRODUCTS

定向光源下能展现出多彩颜色及闪亮效果，不同角度多种光泽，强大视觉冲击突显产品优异的表面装饰效果。

Directional light source can show a variety of colors and shining effect, different angles of a variety of gloss, strong visual impact highlight products, excellent surface decoration effect.

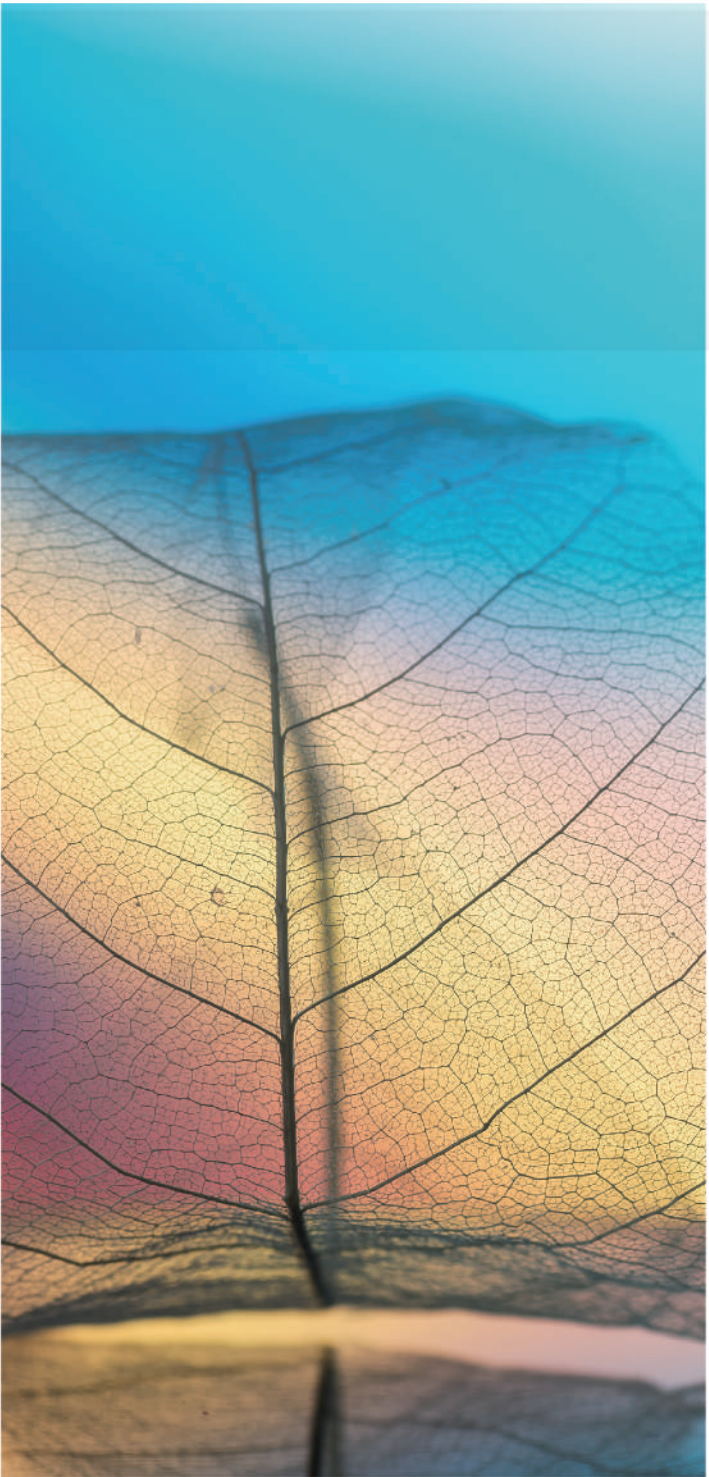

SSEART® 绑定金属产品

BONDING METAL PRODUCTS METALLIC BONDING PRODUCTS

利用高科技设备和智能温控技术，金属颜料分散性好、金属效果更加璀璨，批次间色差稳定。

It uses high-tech equipment and intelligent temperature control technology, Good dispersion of metallic pigments, The metal looks even better, Stable color difference between batches.

色彩研究 COLOR RESEARCH

色彩研究中心 COLOR RESEARCH CENTER

作为中国流行色协会理事单位，盛达回归最基本的色彩学，深入探究色彩与生活的关系，用色彩为客户的产品增值，用色彩触发产品使用者的情感体验。目前，色彩技术已成为盛达的核心优势之一。

色彩，使完美的结构散发出魅力；色彩，使巧妙的布局拥有灵魂。盛达深谙消费者心理，善于为品牌打造色彩名片，增强客户产品竞争力，让其产品具有独有的色彩辨识度，让消费者对产品保持持续不断的喜爱。

盛达数十年如一日专注色彩研发,从传统色系到时尚色系,从基础色系到创新色系,上万种颜色,供客户进行选择,颜色配方大胆创新、效果经验、品质卓越,并可为客户提供定制化服务,快速调配出客户需要的色彩,满足客户多领域、多维度的需求。

As a council member of China Fashion & Color Association, SSEART returns to the most basic color theory, deeply explores the relationship between color and life, adds value to products with color, and inspires the emotional experience of users. At present, color technology has become one of the core advantages of SSEART.

Color is the glamour of perfect structure; color is the soul of artful layout. SSEART has a deep understanding of consumer's psychology, good at creating color image for the brand to enhance the competitiveness of products; the unique color identification makes consumers keep continuous love to the brand.

SSEART has been focusing on color research and development for decades, from traditional color system to fashion color system, from basic color system to innovative color system, there are 10000 color options. These color formulas are characteristics with bold innovation, stunning effect and excellent quality. Customized services can be provided and required colors can be designed quickly to meet customers' multi-industry, multi-dimensional needs.

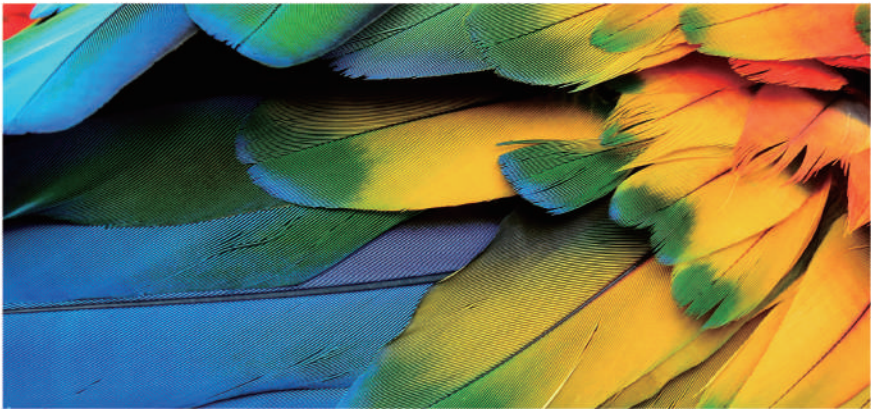

色彩趋势研究 COLOR TREND RESEARCH

盛达是中国流行色协会理事单位 SSEART is a council member of China Fashion & Color Association

每年，盛达依据 ICC (International Color Consortium) 、 CMG (Color Marketing Group) 、 ICA (International Colour Authority) 、 AIC (International Colour Association) 、 CAUS (Color Association US) 、 CFCA (中国流行色协会) 、 RAL 、 PANTONE 、 WGSN 、瑞典NCS等权威机构的色彩报告,综合当下全球的社会、经济、思潮、政治、文化等热点,参考市场接受度、消费者生活方式和使用习惯等,研发年度新色系。

Every year, based on the color reports of ICC (International Color Consortium) , CMG (Color Marketing Group) , ICA (International Color Authority) 、 AIC (International Color Association) 、 CAUS (Color Association US) 、 CFCA, RAL, PANTONE, WGSN, Sweden NCS and other authoritative organizations, studying the current global social, economic, trend of thought, politics, culture and other hot spots, with reference to market acceptance, consumer lifestyle and usage habits, SSEART releases the annual new color system.

色彩故事 COLOR STORY

摩拜橙背后的无名英雄

The Unsung Hero Behind the MOBIKE Orange

2016 年,正是共享单车狂飙突进之年,摩拜单车掀起了一股橙色风暴,摩拜橙以炫酷时尚的外观,成为其争夺市场的重要法宝。但是在竞争初期,由于没有统一的颜色标准和喷涂标准,产品色差大,产品质量参差不齐,存在很多隐患。

2016 was the booming year of bike sharing. MOBIKE, as the leader of the industry, started an orange storm. with its cool and fashionable appearance , has become an important weapon to fight for the market . But in the early stage of competition , Because there is no uniform color standard and spray standard , it has great color difference , the product quality is uneven , there are many hidden dangers.

这时,作为自行车粉末涂料的引领者的天津盛达新材料有限公司引起了摩拜的关注。经过实地考察和多次沟通,摩拜邀请盛达来担任此次色标研发工作。

Tianjin SSEART New Material CO . , LTD , a s the leader of powder coating in bicycle industry , draw the eye sight of MOBIKE at the right time. After field investigation and communication for many times, MOBIKE invited SSEART to take charge of the research and development of color standard.

盛达设计产品时延续“绿色环保”的理念,采用绿色原材料,严格遵守欧盟 RoHS 指令,进行了多次配方迭代。几十天后,盛达不负所托,成功研发出 P-1552 号户外粉末涂料产品:该产品颜色与 Pantone172C 高度一致,耐候性高达 5 年,灰标达到四级,喷涂效果完全符合摩拜期望。摩拜对盛达的定制能力给予了充分认可,并委托盛达制作了“标准色板”,发给全国生产商遵照执行。

SSEART continue the "green" concept in the paint designing, using green raw materials, minimize carbon emissions in formula design, strictly confirm to the EU RoHS directive. After dozens of days, SSEART lived up to its promise and successfully developed P-1552 outdoor powder coating: the color of P-1552 is highly consistent with Pantone172C, the weather resistance is up to 5 years, the gray scale is up to level 4, and the spraying effect is completely in line with the expectations of MOBIKE. MOBIKE fully recognized SSEART's customized capabilities and commissioned SSEART to produce the "standard color board" for national manufacturers to comply with.

经此一役,摩拜有效维护了品牌色的统一规范和喷涂质量,为后来更大规模生产和投放单车扫清障碍。盛达为摩拜制定的《摩拜橙粉末涂料喷涂标准》,有力支撑了摩拜单车的市场扩张战略,被誉为共享经济时代的“无名英雄”。

Through this battle, MOBIKE effectively maintained the uniform standard of brand color and spray quality, clearing the way for the further large-scale production and delivery of bicycles. The "MOBIKE orange powder coating spraying standard" constituted by SSEART has strongly supported the market expansion strategy of MOBIKE, and SSEART also been praised as the "unsung hero" in the era of sharing economy.

行业应用 APPLICATION

建筑建材领域 BUILDING MATERIALS

打造绿色工程，为大型建筑工程提供专业的涂装解决方案

Build a green project; provide professional coating solutions for large construction projects

建筑材料是建筑施工的物质基础,直接影响工程的质量,关乎人民群众的健康与安全。盛达粉末坚持初衷,投身建筑领域多年,提供专业建筑涂装解决方案。盛达粉末涂料具有卓越的耐候性能,能够应对各种严苛的建设环境。具有耐磨、防腐、高涂覆率和利用率特性,能有效节约涂装成本。

Building materials are the material basis of construction, which directly affects the quality of the project and the safety of people. SSEART adhere to the original intention, committed to the construction field for many years, provide professional architectural coating solutions. SSEART powder coating has excellent weather resistance, can cope with a variety of harsh construction environment. It has the characteristics of wear-resisting, anti-corrosion, high coating rate and utilization rate, and can effectively save the coating cost.

汽车领域 AUTOMOBILE INDUSTRY

承载美好驰骋，践行可持续发展之路

Carrying the beauty of galloping, Practice sustainable development

汽车工业是世界工业涂料的使用大户,随着汽车销量的日益攀升,其涂料耗用量与日俱增,创造经济效益的同时,也面临着减少挥发性有机物VOC排放的巨大环境压力。粉末涂料不含溶剂,并辅以有效的施工回收体系,逐渐成为汽车涂料公认的理想选择。盛达粉末的金属邦定技术,具有极佳的流平性和饱和度,强调镜面反射效果,带来金属质感,具有强烈视觉冲击力,是提升产品档次的优质之选。

The automobile industry is a large user of industrial coatings in the world. With the increasing sales volume of automobiles, its coating consumption is increasing day by day. While creating economic benefits, it is also facing great environmental pressure to reduce VOC emissions. Powder coatings are solvent free and with effective construction recovery system, have gradually become an ideal choice for automotive coatings. Metal bonding technology of SSEART powder, with excellent leveling and saturation, emphasis on the effect of mirror reflection, metal texture, have a strong visual impact, is a good choice to enhance the grade of product.

Successful cases 成功案例

自行车领域 BICYCLE INDUSTRY

极致服务，走向全球 Ultimate service, step to the world

盛达新材料是自行车行业蓬勃发展的见证者和深度参与者。涂装盛达粉末涂料的自行车遍布世界各地。我们与全球产量最大的自行车制造企业、全球最大的电动车企业、国内大型自行车配件集团有着合作关系。盛达是《中国自行车涂料标准》起草单位之一。盛达以完整的自行车涂料产品体系,引领着行业的发展潮流,深受广大自行车生产商的青睐和长久的信任。

SSEART New Materials is a witness and deep participant of the booming bicycle industry. Bicycles coated with SSEART powder can be found all over the world. We have a cooperative relationship with the world's largest bicycle manufacturer, the world's largest electric vehicle enterprise, and the domestic large group of bicycle parts. SSEART is one of the drafters of "Chinese bicycle coating standards". With a complete product system of bicycle coating, SSEART leading the development trend of the industry, enjoy a great popularity and long-term trust among bicycle manufacturers.

成功案例 Successful cases

家用电器领域 HOME APPLIANCES INDUSTRY

家用电器“粉末涂料”是对健康和生命的敬畏

"Transfer paint to powder" for household appliances It is the awe of health and life

盛达粉末紧随时代设计理念,致力于为家电产品提供更卓越的保护,更加绿色的涂装和更加高端的质感。盛达的产品通过了ISO9001:2008和ISO14001:2004,产品无毒无害,且符合欧盟RoHS指令,让人们居家生活更舒适、更健康、更安全、更从容,帮助人们激发生活灵感,缔造精彩人生。

SSEART follows the design concept of the times and committed to providing better protection, greener coating and high-end texture for household appliances. SSEART products certified by ISO9001:2008 and ISO14001:2004, non-toxic and harmless, and in line with the EU RoHS directive, make people's life more comfortable, healthier, safer, more leisurely, inspire people and create a wonderful life.

成功案例 Successful cases

通用工业领域 GENERAL INDUSTRY

技术驱动，为工业级产品提供高级别保护

Technology-driven, provide high level protection for industrial products

盛达粉末涂料是通用工业领域的理想涂料选择,可广泛应用于IT、配电设施、电梯、阀门等表面的涂装。优异的物理及化学性能,为产品提供高级别保护。我们将环保理念贯穿于整个研发、制造环节,致力于为客户提供高品质绿色环保涂料,为产品提供长效保护,呵护客户健康,保护地球生态。

SSEART powder coating is the ideal coating choice in general industrial, which can be widely used for surface coating in the field of IT, power distribution facilities, elevators, valves. Excellent physical and chemical properties provide a high level protection for products. The concept of environmental protection is throughout the entire R & D, manufacturing process, devoted to providing high-quality green coating to customers, providing long-term protection for products, caring for the health of people and protecting the ecology of earth.

家具领域 FURNITURE INDUSTRY

定义色彩美学，高端家具涂装之选

Define color aesthetics, good choice for high-end furniture coating

盛达粉末涂料已经成为家具行业高端、时尚的代名词。我们可以提供各色的高光、平光、亚光、无光等平面粉末涂料;垂纹、砂纹、点花、变色、多色、金属色等纹理型粉末涂料以及透气、超耐候、耐化学品等高性能粉末涂料,是室内、室外、休闲、办公等高端家具行业的理想涂料选择。

SSEART powder coating has become a synonym for high-end and fashion in furniture industry. We can provide various of ordinary powder coatings including high-gloss, plain, matt, light; decorative powder coatings such as pattern, vertical lines, sand, point flowers, discoloration, multi-color, metallic color, and high performance powder coatings, such as breathable, super weather resistance, chemical resistance. It is the ideal painting choice for indoor, outdoor, leisure, office and other high-end furniture industries.

健身器材 FITNESS EQUIPMENT

高标准的涂装质感，时刻环保呵护健康

High standard coating texture ,Environmental protection and health care

SSEART 粉末涂料为健身器材打造高端涂装质感,颜色时尚,品质环保。健身房常见的跑步机、动感单车、划船器、健身车、力量型健身器材等,都可以采用静电喷涂,对环境无污染,对人体无毒害,色泽鲜艳分明,表面光滑,涂层耐磨防腐能力高,不易变色,完全满足健身器材的安全性检验和高品质标准。

SSEART Powder coating provide high-end coating texture for fitness equipment, with fashionable color, quality and environmental friendly. Running machine, spinning, rowing machine, stationary bike, strength fitness equipment in Gym, can adopt electrostatic spraying, good to environment, harmless to human, with bright color, smooth surface, good wear-resistance, high corrosion resistance, good color fastness, completely satisfy the security inspection and high quality standards of fitness equipment.

防腐领域 ANTI-CORROSION INDUSTRY

利用先进的工艺,确保防腐手段经济、有效

Advanced technology ,ensures the economical and effective of anti-corrosion

防腐粉末涂料作为经济、有效的防腐手段,广泛应用于国民经济的各个领域,如输油输气管道、饮用水管道、消防给水管、煤矿瓦斯双抗管等。盛达防腐型粉末涂料由环氧树脂、功能固化剂等材料混合而成,满足现代工业对防腐涂料的环境承受能力和使用寿命提出的更高要求。

As an economical and effective means of anticorrosion, anti-corrosion powder coating can be widely used in various fields of national economy, such as oil and gas pipelines, drinking water pipelines, fire-fighting water supply pipes, coal-gas dual resistance pipes, etc. SSEART anti-corrosion powder coating is mixed of epoxy resin, functional curing agent and other materials, which meets the higher requirements on the environmental endurance and service life of anticorrosive coating in modern industry.
