POINT SYSTEM

Point1

Point2

Point3

Point Clay Bar System is different with K and F,M,H grade clay bar. the Point clay bars have function of clay bar. Based safety remove rule, and also have function for the clay bar. for exmaple: P1 is a deep remove clay bar, it is not removal contaminants fast, also will polish on the surfaces, always use to small part of paints. and P2 we design it to only removal also polishing function. P3 Maybe release in the future to not only removal function also like wax, let car paints smooth and shine.
